

NORTHROP GRUMMAN

ASSEMBLER APPRENTICESHIP

Do you want to elevate your career
and further your education?
An apprenticeship offers...

- **STRUCTURED ON-THE-JOB TRAINING**
- **MENTORSHIP & VISIBILITY TO LEADERSHIP**
- **RELATED TECHNICAL INSTRUCTION & DEGREE**
- **DEFINED CAREER PATH FOR ADVANCEMENT**

ELEMENTS OF AN APPRENTICESHIP

PROGRAM LENGTH & WAGE PROGRESSION

Depending on prior work and education experience, the program will take between **2-4 years** to complete.

Throughout the program you will receive an **annual wage increase** and may be eligible for a level promotion at the end of or during the apprenticeship.

RELATED TECHNICAL INSTRUCTION

By completion of this program, you will have earned an **AAS in Industrial Electronics Technology** through PVCC (Piedmont Virginia Community College). You will take these courses on your own time but tuition will be covered entirely by external funding and/or Northrop Grumman's EdAssist program.

ON-THE-JOB TRAINING & MENTORSHIP

As an apprentice, you are still a full-time employee. You will be paired up with a mentor and trained in the following areas:

- Wire Harness Assembly
- Hydraulics Assembly
- Assembly Repairs
- Sub/Final Assembly
- PCB Assembly

If you're interested in this opportunity, please reach out to Leisa Hall or Kristen Englert.
